

Where you see the facilities, we see the flaws ...

# HACKTRACK

A workshop on Ethical Hacking & Information Security

## PRIVILEGES

- ① sudo command - run command as root
- ① sudo -s - open a root shell
- ① sudo -s -u user - open a shell as user
- ① sudo -k - forget sudo passwords
- ① gksudo command - visual sudo dialog (GNOME)
- ① kdesudo command - visual sudo dialog (KDE)
- ① sudo visudo - edit /etc/sudoers
- ① gksudo nautilus - root file manager (GNOME)
- ① kdesudo konqueror - root file manager (KDE)
- ① passwd - change your password

## DISPLAY

- ① sudo /etc/init.d/gdm restart - restart X and return to login (GNOME)
- ① sudo /etc/init.d/kdm restart - restart X and return to login (KDE)
- ① (file) /etc/X11/xorg.conf - display configuration
- ① sudo xorg.conf - reset xorg.conf configuration
- ① Ctrl+Alt+Bksp - restart X display if frozen
- ① Ctrl+Alt+FN - switch to tty N
- ① Ctrl+Alt+F7 - switch back to X display

## SYSTEM SERVICES

(Prefix commands with sudo to run)

- ① start service - start job service (Upstart)
- ① stop service - stop job service (Upstart)
- ① status service - check if service is running (Upstart)
- ① /etc/init.d/service start - start service (SysV)
- ① /etc/init.d/service stop - stop service (SysV)
- ① /etc/init.d/service status - check service (SysV)
- ① /etc/init.d/service restart - restart service (SysV)
- ① runlevel - get current runlevel

## APPLICATION NAMES

- ① nautilus - file manager (GNOME)
- ① dolphin - file manager (KDE)
- ① konqueror - web browser (KDE)
- ① kate - text editor (KDE)
- ① gedit - text editor (GNOME)

## NETWORK

- ① ifconfig - show network information
- ① iwconfig - show wireless information
- ① sudo iwlist scan - scan for wireless networks
- ① sudo /etc/init.d/networking restart - restart network for manual configurations
- ① (file) /etc/network/interfaces - configuration
- ① ifup interface - bring interface up
- ① ifdown interface - disable interface

## SPECIAL PACKAGES

- ① ubuntu-desktop - standard Ubuntu desktop
- ① kubuntu-desktop - KDE desktop
- ① xubuntu-desktop - Xfce desktop
- ① ubuntu-minimal - core Ubuntu utilities
- ① ubuntu-standard - standard Ubuntu desktop
- ① ubuntu-restricted-extras - non-free software
- ① kubuntu-restricted-extras - KDE desktop
- ① xubuntu-restricted-extras - Xfce desktop
- ① build-essential - packages used to build programs
- ① linux-image-generic - latest generic kernel image
- ① linux-headers-generic - latest generic kernel headers

## FIREWALL

(Prefix commands with sudo to run)

- ① ufw enable - turn on the firewall
- ① ufw disable - turn off the firewall
- ① ufw default allow - allow all connections
- ① ufw default deny - drop all connections
- ① ufw status - current status and rules
- ① ufw allow port - allow traffic on port
- ① ufw deny port - block port
- ① ufw deny from ip - block ip address

## PACKAGE MANAGEMENT

(Prefix commands with sudo to run)

- ① apt-get update - refresh available packages
- ① apt-get upgrade - upgrade all packages
- ① apt-get dist-upgrade - upgrade with replacements; upgrade Ubuntu version
- ① apt-get install pkg - install package
- ① apt-get purge pkg - uninstall package
- ① apt-get autoremove - remove obsolete packages
- ① apt-get -f install - try to fix broken packages
- ① dpkg -i pkg.deb - install file package
- ① (file) /etc/apt/sources.list - list of sources

## SYSTEM

- ① Recovery - Type the phrase "REIS" holding down Alt and SysRq (Print about 1 second between each letter) will reboot.
- ① lsb\_release -a - get Ubuntu version
- ① uname -r - get kernel version
- ① uname -a - get all kernel information

*Where you see the facilities, we see the flaws ...*

## Workshop Session Schedule

Modules	Particulars	Duration (Hours)
1.	<b>Cyber Ethics</b> <ul style="list-style-type: none"><li>✓ Hackers &amp; hacking methodologies</li><li>✓ Types of hackers</li><li>✓ Communities of Hackers</li><li>✓ Malicious Hacker Strategies</li><li>✓ Steps to conduct Ethical Hacking</li><li>✓ Hiding your identity while performing attacks</li></ul>	0.5
2.	<b>Information Gathering &amp; Scanning Methodologies</b> <ul style="list-style-type: none"><li>✓ Get to know how hacker gather information about victim on internet</li><li>✓ Information gathering of websites &amp; networks</li><li>✓ Scanning &amp; Structuring of websites</li><li>✓ Finding Admin Panel of websites</li></ul>	1.0
3.	<b>Trojans, Backdoors</b> <ul style="list-style-type: none"><li>✓ How to control victim's computer using Trojans</li><li>✓ Binding Trojans with another file</li><li>✓ Undetection process of Trojans from Antivirus</li><li>✓ Removal of Trojans from your computer</li><li>✓ Analysis of Trojans/Virus</li></ul>	0.5

Email: [info@techdefence.com](mailto:info@techdefence.com)

Mobile: +91 9898493002 | Office: +91 7940047405

*Where you see the facilities, we see the flaws ...*

4.	<b>Google Hacking</b> <ul style="list-style-type: none"><li>✓ Using Google as hacking tool</li><li>✓ Advanced operators of Google</li><li>✓ Finding Vulnerable websites using Google</li><li>✓ Finding Target networks using Google</li></ul>	0.5
5.	<b>Wireless Hacking &amp; Security</b> <ul style="list-style-type: none"><li>✓ Wireless Protocols</li><li>✓ Wireless Routers-Working</li><li>✓ Attacks on Wireless Routers</li><li>✓ Cracking Wireless routers password(WEP)</li><li>✓ Securing routers from Hackers</li><li>✓ Countermeasures</li></ul>	0.5
6.	<b>Mobile, VoIP Hacking &amp; Security</b> <ul style="list-style-type: none"><li>✓ SMS &amp; SMSC Introduction</li><li>✓ SMS forging &amp; countermeasures</li><li>✓ Sending &amp; Tracking fake SMSes</li><li>✓ VoIP Introduction</li><li>✓ Installing VoIP Server</li><li>✓ Forging Call using VoIP</li></ul>	2.0

Email: [info@techdefence.com](mailto:info@techdefence.com)

Mobile: +91 9898493002 | Office: +91 7940047405

*Where you see the facilities, we see the flaws ...*

7.	<b>Web Application Attacks</b> <ul style="list-style-type: none"> <li>✓ Web Application Overview</li> <li>✓ Web Application Attacks</li> <li>✓ OWASP Top 10 Vulnerabilities</li> <li>✓ Putting Trojans on websites</li> <li>✓ SQL injection attacks</li> <li>✓ Executing Operating System Commands</li> <li>✓ Getting Output of SQL Query</li> <li>✓ Getting Data from the Database Using ODBC Error Message</li> <li>✓ How to Mine all Column Names of a Table</li> <li>✓ How to Retrieve any Data</li> <li>✓ How to Update/Insert Data into Database</li> <li>✓ SQL Injection in Oracle</li> <li>✓ SQL Injection in MySQL Database</li> <li>✓ Attacking Against SQL Servers</li> <li>✓ SQL Server Resolution Service (SSRS)</li> <li>✓ SQL Injection Automated Tools</li> <li>✓ Blind SQL Injection</li> <li>✓ Preventing SQL Injection Attacks</li> <li>✓ XSS attacks</li> <li>✓ Finding &amp; Fixing XSS in websites</li> <li>✓ Local File inclusion attacks</li> <li>✓ Remote file inclusion attacks</li> <li>✓ Buffer Overflow attacks</li> <li>✓ Session Hijacking attacks</li> <li>✓ 20 Hands on Demonstrations on real websites</li> <li>✓</li> </ul>	4.0
8.	<b>System &amp; Network hacking</b> <ul style="list-style-type: none"> <li>✓ Hacking Administrators password</li> <li>✓ Enumeration of networks</li> <li>✓ Use of Sniffers to sniff network data.</li> </ul>	1.0

Email: [info@techdefence.com](mailto:info@techdefence.com)

Mobile: +91 9898493002 | Office: +91 7940047405

*Where you see the facilities, we see the flaws ...*

9.	<b>Email Hacking</b> <ul style="list-style-type: none"> <li>✓ Making fake pages</li> <li>✓ How to use keyloggers to hack mail ids</li> <li>✓ Social Engineering Techniques</li> </ul>	1.0
10.	<b>Introduction to Cyber Crime Investigation</b> <ul style="list-style-type: none"> <li>✓ Types of Cyber Crimes</li> <li>✓ Report Cyber Crimes</li> </ul>	1.0
11.	<b>Investigation Methodologies</b> <ul style="list-style-type: none"> <li>✓ Different Logging Systems</li> <li>✓ Investigating Emails ( Email Tracing)</li> <li>✓ Ahmedabad Bomb Blasts Terror Mail case study</li> <li>✓ Investigating Phishing Cases</li> <li>✓ Investigating Data Theft Cases</li> <li>✓ Investigating Orkut Profile Impersonation Cases</li> <li>✓ Cyber Law &amp; IT Act,2000</li> </ul>	2.0
12.	<b>Difficulty Handling Session &amp; Exam 2.0</b>	2.0
	<b>Total Hours</b>	<b>16.0</b>

**Note:** These are just the major aspects that we will be discussing, each point will be elaborated in detail with demonstrations of the tools and techniques

*Where you see the facilities, we see the flaws ...*

## Program Benefits & Highlights

- ✓ Learn & Interact with renowned Industry Experts
- ✓ Receive an unparalleled education on the art of computer security with personal one-on-one attention from Sunny Vaghela.
- ✓ Hands on Demonstrations of Latest Hacking Techniques & Tools.
- ✓ Hands on Demonstrations of various cases solved by Sunny Vaghela.
- ✓ PowerPoint Presentation, Live Demos, Interactive Question & Answer sessions and comprehensive reading material.
- ✓ Toppers of each workshop to be personally interviewed Sunny Vaghela and will receive a chance to work with him on security projects.

## Key points of TechDefence

- ✓ We have rich experience working on cases & training for Crime Branch, Ahmedabad, Rajkot, Surat, Nashik & Hyderabad.
- ✓ Conducted more than 160 workshops & seminars for Students & Professionals across globe.
- ✓ We helped Top Investigating Agencies to solve Cyber Terrorism Cases like Ahmedabad & Mumbai Blasts Cases.
- ✓ We do not use third party tools. We have developed our Crypters, Trojans, and Scripts etc.
- ✓ Our Director & Trainer is supported by Ministry of Home Affairs, Malaysia.

## Workshop Trainer

**Sunny Vaghela** (To know more about Sunny Vaghela please visit [www.sunnyvaghela.com](http://www.sunnyvaghela.com))

Email: [info@techdefence.com](mailto:info@techdefence.com)

Mobile: +91 9898493002 | Office: +91 7940047405

*Where you see the facilities, we see the flaws ...*

## Course material & CDs

- ✓ Comprehensive course material will be provided to participants.
- ✓ Ethical Hacking Toolkit worth Rs.500 (Containing Tools, Videos, EBooks, Presentations)

## Course Duration

- ✓ 2 Days (8 hours/day).

## Fees & Certification

- ✓ Rs. 1100 Rs/Participant (This includes Registration Kit, Ethical Hacking Toolkit, and Course Material).
- ✓ Certificate of "**Certified Ethical Hacking Expert – Level 1**" will be given to participants from **TechDefence & Techfest, IIT Bombay**.
